

Standard

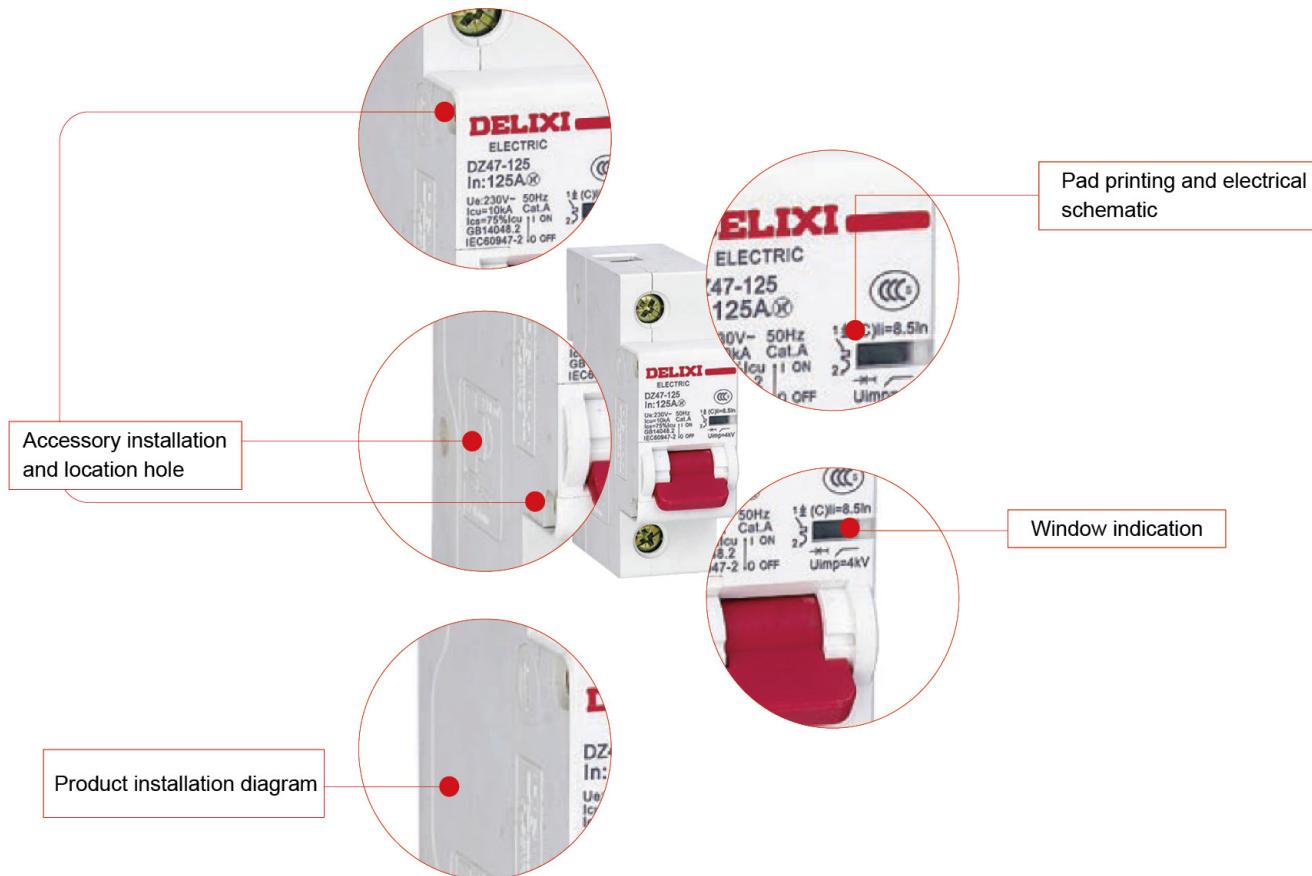

GB10963.1 IEC/EN60898-1

Certificate**DZ47-125 27mm Miniature Circuit Breaker****DZ47-125 miniature circuit breaker has the following functions:**

- Short-circuit protection
- Over-load protection
- Isolation protection

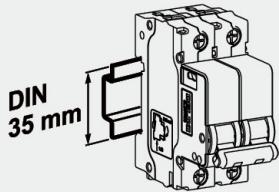

Specification

Rated operating voltage (V)	1P: 230/400 AC 2P, 3P, 4P: 400 AC
Rated current(A)	63~125
Rated frequency(Hz)	50/60
Poles	1P,2P,3P,4P
Breaking capacity(kA)	10

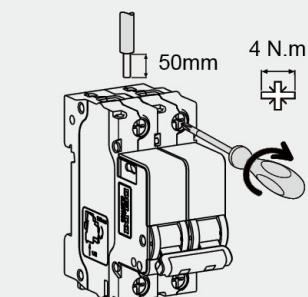

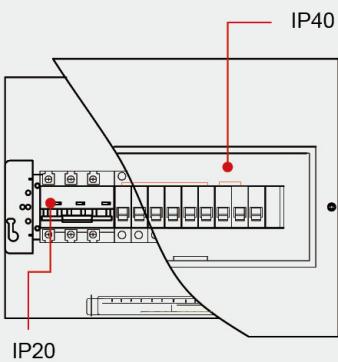

Product Details Showing

Electrical characteristics

Rated insulation voltage (Ui)	(V)	250(phase to earth) / 500(phase to phase)
Maximum operating voltage $U_{B\max}$	1P (V) 2P,3P,4P (V)	230/400 AC 400 AC
Rated short circuit capability Icn (IEC/EN60898)	(kA)	10
Rated impulse withstand voltage $Uimp(1.2/50)$	(kV)	4
Dielectric test voltage		2kV(50/60HZ,1mins)
Isolation function		YES
Pollution degree		2
Tripping type		Thermal magnetic tripping
Characteristic of Thermal-Magnetic Tripping	C Curve($li \sim 8.5In$) D Curve($li \sim 12In$)	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/>
Electrical and mechanical accessories		<input checked="" type="checkbox"/>

Mounted on 35mm standard Din-rail

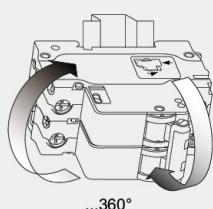

Mechanical Characteristics

Handle	Red, pad printing indication ON-OFF position	
Mechanical life	times	20000
Electrical life	times	6000 ($In \leq 100A$) 4000 ($In \geq 100A$)
Protection degree	Installed in distribution box	IP40
	Installed directly	IP20
Mechanical shock resistance	30g,3 times shock,duration 11ms (No significant vibration and shock place)	
Anti-vibration (IEC/EN 60068-2-6)	(No significant vibration and shock place)	
Damp and hot resistance (IEC 60068-2)	Damp and hot °C /RH	2 type 28 cycles Temp. 55°C Humidity 90%~96% Temp. 25°C Humidity 95%~100%
Reference ambient temperature	°C	30°C
Ambient temperature (Daily average temperature $\leq +35°C$)	°C	-35°C ~+70°C
Stock Temperature	°C	-40°C ~+85°C

Installation Characteristics

Terminal type	U terminal
Maximum wiring capability (A)	Current rating 63-125:25mm ²
Maximum limit torque (A)	Current rating 63-125:3.5 N.m
Tool	Crosshead or flathead screwdriver
Installation	Mounted on standard DIN rail (35mm)
Incoming type	Top or bottom

Flexible installation direction

Installation Dimensions

Tripping curve

DZ47-125 accessories

Remote indication accessories

- OF Auxiliary contact
- External circuit, indicating the status of the circuit breaker
- Basic form of the auxiliary contact:1 NO,1 NC
- Wiring capacity:1-4mm²

- SD Alarm contact
- Signal when the circuit breaker fault trips
- Mechanical indication on the front panel to indicate fault tripping
- Basic form of the auxiliary contact:1 NO,1 NC
- Wiring capacity:1-4mm²

Trip accessories

- MX+OF Shunt release
- External circuit, indicating the status of the circuit breaker
- When the signal is obtained, the circuit breaker trips
- The basic form of the auxiliary contact:1 NO,1 NC
- Wiring capacity:1-4mm²

- MV Overvoltage release
- Protection against line overvoltage faults
- When the voltage across the trip unit rises to the rated range, the circuit breaker trips
- There is a fault trip indication on the front panel, and the indicator pops up for overvoltage tripping.
- Rated working trip overvoltage:(280+/-14) V AC
- Wiring ability:1-25mm²

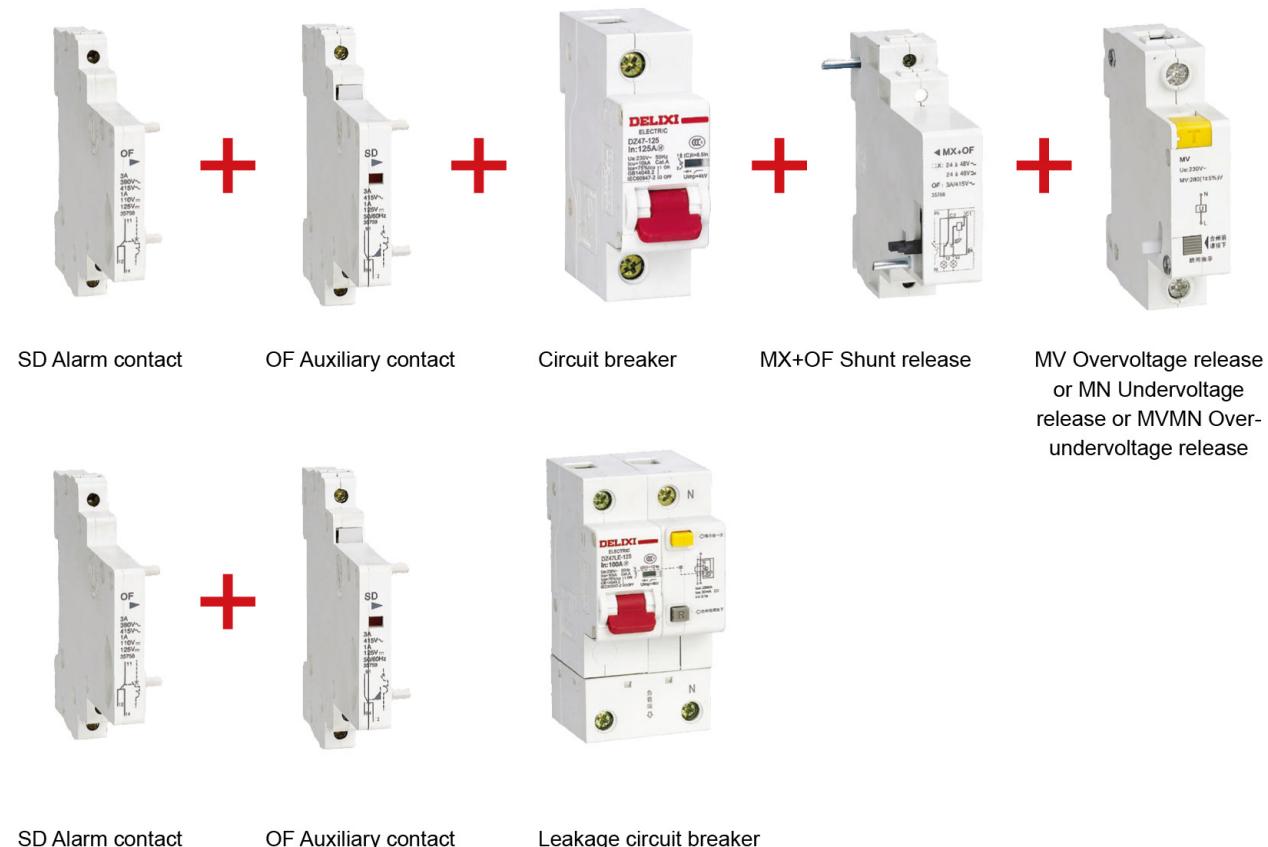

- MN Undervoltage release
- Protection against line undervoltage faults
- When the voltage across the trip unit drops to the rated range, the circuit breaker trips
- There is a fault trip indication on the front panel, and the indicator pops up for undervoltage tripping
- Rated working trip undervoltage:(161+/-8.05) V AC, undervoltage protection interval is(35%~70%)Ue
- UeWiring ability:1-25mm²

- MVMN Over-undervoltage release
- Protection against line overvoltage and undervoltage
- When the voltage across the trip unit rises or falls to the rated range, the circuit breaker trips
- There is a fault trip indication on the front panel, and the indicator pops up for overvoltage or undervoltage tripping
- Rated working trip overvoltage:(280+/-14) V AC, rated working trip undervoltage:(161+/-8.05) V AC, undervoltage protection interval is (35%~70%) Ue
- Wiring ability:1-25mm²

DZ47-125 Accessories installation diagram

Assembly instructions

- 1.DZ47-125 series accessories are VC products, not sold separately, spliced by the manufacturer, customers can not assemble themselves.
- 2.OF, SD assembled on the left side of the circuit breaker, only one accessory can be assembled on the left side of each circuit breaker.
- 3.MX+OF, MV, MN, MVMN are assembled on the right side of the circuit breaker, and only one accessory can be assembled on the right side of each circuit breaker.
- 4.DZ47LE-125 leakage products can not be assembled on the right side of the accessories.

DZ47-125 Assembly instructions
